

PROJECT TITLE:

Intersection Improvements: Santa Barbara at De la Guerra Streets

WHY THIS PROJECT?

The intersection of De La Guerra Street and Santa Barbara Street is an offset intersection, with limited sight lines for westbound and northbound drivers.

PROJECT BENEFITS:

This project will improve the alignment and visibility of the north leg crosswalk for drivers on westbound De La Guerra Street. Pedestrian access ramps will be relocated, and the traffic signal will be refurbished for long-term reliability and will include new pedestrian countdown timers. Approximately six new on-street parking spaces will be added. Work will be coordinated with planned Santa Barbara Street repaving.

QUICK FACTS

Location: Santa Barbara Street and De La Guerra Street

Design Schedule: fall 2019 through spring 2020

Construction Schedule: fall 2020

Total Project Costs: \$150,000

Funding Source: Measure C - Fiscal Year 2020
